LATITUDES

Dear Harold,

Thank you for the marvelous letter and for the SCOTCH MAGIC TAPE —— god, have we been primitive at LATITUDES!! We could have been using one of the Establishment's family products against them —!

your note on the time delay of mail was in Photo WW - was very good. The note on Lovelady (mrs.) at end of Photo WW is no good unless I get a fuller story - of course.

Have Re-read Epilogue of WWII and would have used except we disagree on Lane's work somewhat - I still think it does no damn good for critics to knock each other and I cannot understand some Critics not backing Garrison - who's the enemy anyway??

But your work is, of course, some of the most important and you must continue it. We depend so much on Garrison now——

Best to you both and thanks - Bob——
